- Date scan completed: **March 12, 2017 6:40pm**
- Scan expiration date (90 days from date scan completed): **June 12, 2017**

Scan Customer Attestation

Nodus Technologies, Inc. attests on March 12, 2017 6:40pm that this scan includes all components which should be in scope for PCI DSS, any component considered out-of-scope for this scan is properly segmented from my cardholder data environment, and any evidence submitted to the ASV to resolve scan exceptions is accurate and complete. Nodus Technologies, Inc. also acknowledges the following: 1) proper scoping of this external scan is my responsibility, and 2) this scan result only indicates whether or not my scanned systems are compliant with the external vulnerability scan requirement of PCI DSS; this scan result does not represent my overall compliance status with PCI DSS or provide any indication of compliance with other PCI DSS requirements.*

ASV Attestation

This scan and report was prepared and conducted by Alert Logic, Inc under certificate number 4222-01-11, according to internal processes that meet PCI DSS requirement 11.2 and the PCI DSS ASV Program Guide. Alert Logic, Inc attests that the PCI DSS scan process was followed, including a manual or automated Quality Assurance process with customer boarding and scoping practices, review of results for anomalies, and review and correction of 1) disputed or incomplete results, 2) false positives, and 3) active scan interference. This report and any exceptions were reviewed by David Jenkins.
